In today's [#vatniksoup](#) I'll introduce hand-picked anti-NATO commentary by various Finnish, pro-Kremlin voices. As of today, all 30 NATO countries have ratified Finland's application to NATO, which resulted in many unhappy Finnish Putin fans.

Finland set to join Nato after Turkish parliament approval

In a historic shift, Finland has been accepted as a full Nato member by all 30 countries in the alliance. Meanwhile neighbouring Sweden still awaits its green light.

After decades of maintaining its non-aligned status, Finland is to finally become a full member of the trans-Atlantic alliance. Image: PX_MEDIA

One of the biggest anti-NATO figures in Finland has been Panu Huuhtanen ([@HuuhtanenPanu](#)). Panu has a long history of organizing demonstrations, and lately he's been active in protesting against Finland's NATO membership. He's also a HUGE fan of Vladimir Putin.

Täytyy ihailla #Putin'in mielenmalttia.

Vain 2224 siviiliä on kuollut Ukrainan #erikoisoperaatio'ssa.

Nytkin #Mariupol'in terästehdas tyhjennetään rauhanomaisesti #AzovBattalion'in kriminaaleista.

Gotta admire #Putin's composure.

Only 2224 civilians have died in Ukraine #erikoisoperaatio .

Even now #Mariupol's steel factory is being peacefully emptied of #AzovBattalion's criminals.

Putin onnittelee "onnistuneesta operaatiosta Mariupolissa"

klo 10:21: Venäjän puolustusministeri **Sergei Šoigu** kertoi presidentti Putinnille Venäjän valloittaneen Mariupolin. Asiasta uutisoi venäläinen [uutistoimisto Interfax](#). Šoigun mukaan "Venäjän armeija ja Donetskin kansantasavalta vapauttivat Mariupolin" ja loput ukrainalaisista "pakenivat Azovstalin tehdasalueelle". Putin haluaa saataa tehtaan sen sijaan, että sinne hyökkäättäisiin.

In May 2022, he tweeted that Finland and Sweden can "stop this NATO mess" based on Erdogan's political statements. In Jul 2022, he continued this narrative on Russian social media platform, VKontakte. He's often acting as a "journalist" at anti-NATO demonstrations.

Nationalist anti-Erdogan and anti-NATO demonstration at the Turkish Embassy led to police intervention and apprehensions [Videos/Photos]

Published 10.03.2023 12:56, 6845 reads, No Comments

The Finnish nationalist field demands Finland's status as a constitutional republic, and military neutrality is required to be preserved. Many kinds of activism are taking place amid the harsh NATO coercion, and police officers were quick to intervene to prevent Finnish activists from demonstrating at the Turkish Embassy on Wednesday.

President Erdogan was "cut throat" in a provocation. Photo: Twitter.

Turkey maintains a clear distance from Finland and Sweden, which have submitted NATO applications, and the countries' membership applications have not been accepted in Ankara. A similar view exists in the Finnish nationalist field, which does not want to join NATO, especially one that has countries such as Turkey as its member countries.

Sweden and Finland have seen anti-Turkish and anti-Erdogan demonstrations and provocations, but they have been carried out by anarchists and Kurds. Now on the move were Finnish nationalist activists who, for their part, want to keep Finland out of NATO and Turkey's demands far away in Ankara.

MV-Lehti is the biggest Kremlin information laundering service in Finland and Putkonen's financial ties to Kremlin have been proven in a 2016 e-mail leaks.

The mainstream media "forgot" to report on NATO's 15-125 billion membership fee – LEVELI [Video]

Published 11.07.2022 12:41, 14223 reads, 9 comments

What was left untold in the NATO frenzy? Well, those gigantic membership fee costs of at least \$14 billion for Finland's small state. This is what LEVELI said in its broadcast, wondering if there would have been a NATO frenzy if the bill had been in the mainstream media?

The mainstream media "forgot" to report that what will be the membership fee for NATO.

"No one has talked about what NATO's costs will cost. Here it says that NATO membership costs an estimated \$14-125 billion. No one mentioned the cost!"

”

Ups, SURPRISE!! Still hingutte to NATO? It may cost us as much as repairing the damage after the war! War would therefore be at least double the price of our NATO membership!

The NGO appealed to the Hungarian Parliament: We asked for Finland's application for NATO membership not to be ratified

Published 27.03.2023 09:53, 6702 reads, 2 comments

The Hungarian Parliament has announced that it will vote on the ratification of Finland's NATO membership on 27.3.2023. Parliament is believed to vote the penultimate seal on the final document of Finland's long-standing neutrality. The Citizens' Union (formerly the Independence Party, IPU) submitted a written petition with the grounds to the Hungarian delegation not to ratify Finland's membership of NATO.

Hungarian Parliament.

The League of Finnish Citizens writes that the Hungarian delegation visited Finland on 8 March to hear the views of The Speaker of the Parliament, **Matti Vanhanen**, and other representatives on Finland's application for NATO membership. Aware of the one-sidedness of these views, the League of Finnish Citizens, along with the delegation, forwarded a petition signed to the Hungarian Parliament on 6.3.2023 on behalf of those Finns who want to maintain the neutral position of our country and keep Finland out of great power disputes.

We appealed to the Hungarian Parliament, after considering the facts, not to ratify Finland's application for NATO membership. Finland's accession to NATO will not improve the security of NATO countries, but, on the contrary, will provide NATO with more defensible dividing lines and increase the risk of armed conflict due to pressure on Russia.

Johan Bäckman ([@johanbek](#)) is Finland's oldest and biggest (literally and figuratively) Russian troll. He's been involved in spreading and promoting pro-Kremlin narratives for good 20 years, and he's not showing any signs of slowing down. He's the gentleman with the Z symbol.

He's currently candidate for the Finnish parliamentary election in the pro-Russian party VKK. Johans's organized the "Great NATO discussion", a anti-NATO propaganda talk, often featuring the most prominent Finnish pro-Russian propagandists.

Suomen NATO-päätös tehtiin kaukana Helsingistä, Putkonen sanoi RTille. RTilä on katsojia kaikilla mantereilla. Putkosella on paljon isompi yleisö kuin esim. umpikierolla Niinistöllä. Suomen NATO-jumi kestäänyt jo 100 päivää, olisikohan aika perua laiton hakemus?

Translated from Finnish by Google

Finland's NATO decision was made far from Helsinki, Putkonen told RT. RT has viewers on all continents. Putkonen has a much bigger audience than e.g. Niinistö in the dead end. Finland's NATO deadlock has already lasted 100 days, would it be time to cancel the illegal application?
