CULTURAL COMMENT

THE LIVES OF POOR WHITE PEOPLE

By Joshua Rothman
September 12, 2016

“I grew up poor, in the Rust Belt, in an Ohio steel town that has been hemorrhaging jobs and hope for as long as I can remember.” That’s how J. D. Vance begins one of this campaign season’s saddest and most fascinating books, “Hillbilly Elegy: A Memoir of a Family and Culture in Crisis” (Harper). Vance was born in Kentucky and raised by his grandparents, as a self-described “hillbilly,” in Middletown, Ohio, home of the once-mighty Armco Steel. His family struggled with poverty and domestic violence, of which he was a victim. His mother was addicted to drugs—first to painkillers, then to heroin. Many of his neighbors were jobless and on welfare. Vance escaped their fate by joining the Marines and serving in Iraq. Afterward, he attended Ohio State and Yale Law School, where he was mentored by Amy Chua, the law professor and [tiger mom](#). He now lives in San Francisco, where he works at Mithril Capital Management, the investment firm helmed by [Peter Thiel](#). It seems safe to say that Vance, who is now in his early thirties, has seen a wider swath of America than most people.

2016 publizierte Harper JDs Buch Hillbilly Elegy, in dem er sein Leben & Entbehrungen, sowie die sozioökonomischen Probleme seiner Heimatstadt beschrieb. Das Buch war sehr erfolgreich und wurde sogar als schlechter Netflix-Film verfilmt. Es hat JD berühmt gemacht.

In a [2016 interview with NPR](#), Vance said he was leaving the Bay Area to return to Ohio and do nonprofit work to target opioid addiction that was prevalent in his community growing up. “It’s obviously very personally important to me and it’s something my family has struggled with and dealt with,” he said on NPR’s *All Things Considered*. “And I felt, you know, frankly a little bit of responsibility now that I’ve been given this platform by the success of the book to go and try to do at least a little something to help out.”

Vance used his platform to start Our Ohio Renewal, a 501(c)(4) advocacy organization that focused on education, addiction and other “social ills” he mentioned in his memoir. The organization shuttered in less than two years with few accomplishments.

The co-founders of Silicon Valley's most prominent venture capital firm have announced their support for Donald Trump's bid for re-election, and plan to make substantial donations to back him further.

Ben Horowitz and Marc Andreessen, the heads of Andreessen Horowitz, commonly known as A16Z, revealed their plans in a sprawling 90-minute podcast, in which they argued that the future of "American innovation" required a Trump victory.

Im Gegenzug hat Vance angeblich versprochen, Kryptowährungen zu deregulieren und Schutzmaßnahmen für die KI-Entwicklung aufzuheben. Und als Investor kann es für das Geschäft nicht schlecht sein, seinen Lieblingskandidaten im Weißen Haus zu haben, oder?

10/20

Thiel is betting - again - on the same phenomenon in America. Betting that he will be first among a new breed of tech bro oligarchs - a new super-class of brologarchs.

In Trump's America, there will be hard choices for everyone, including the billionaires. Though it may be less hard for them. Vance has said he wants to deregulate crypto and unshackle AI. He's said he'd dismantle Biden's attempts to place safeguards around AI development.

And while he has it in for the legacy monopolies of Google and Facebook - the platforms that his ideological bedfellows in the "new right" see as part of the "censorship industrial complex" suffocating rightwing speech - Silicon Valley is betting on a gloves-off, regulation-free, pro-business goldrush.

Wie seine Investoren-Kollegen ist auch JD extrem opportunistisch. 2016 sprach er sich vehement gegen die Präsidentschaft Trumps aus, nannte ihn „polarisierend & arrogant“, „Amerikas Hitler“, bezeichnete sich selbst als „niemals Trump-Typ“ & Trumps Wähler als „Idioten“.

On the campaign trail, the former venture capitalist has also served as a bridge between Trump associates and wealthy Silicon Valley donors, many of whom have opened their wallets to Trump this election.

MILWAUKEE, July 15 (Reuters) - Eight years ago, in the lead-up to the 2016 presidential election, J.D. Vance was a bitter critic of Donald Trump.

Publicly, he called the Republican presidential candidate an "idiot" and said he was "reprehensible." Privately, he compared him to Adolf Hitler.

  **JD Vance**
Active 6h ago  

But I'm not surprised by Trump's rise, and I think the entire party has only itself to blame. We are, whether we like it or not, the party of lower-income, lower-education white people, and I have been saying for a long time that we need to offer those people SOMETHING (and hell, maybe even expand our appeal to working class black people in the process) or a demagogue would. We are now at that point. Trump is the fruit of the party's collective neglect. 3) I go back and forth between thinking Trump is a cynical asshole like Nixon who wouldn't be that bad (and might even prove useful) or that he's America's Hitler. How's that for discouraging?

Aber seine reichen Meister haben ihre Meinung über Trump geändert: 2021, nach der Ankündigung seiner Senatskandidatur, wurde JD von Trump politisch verraten. Danach löschte JD einige seiner alten Beiträge in den sozialen Medien & entschuldigte sich öffentlich für sie.

Ohio Republican Senate candidate J.D. Vance said on Monday that he regrets posting since-deleted tweets critical of former President Trump.

"Like a lot of people, I criticized Trump back in 2016," Vance told Fox News's Alicia Acuna during a Monday interview. "And I ask folks not to judge me based on what I said in 2016, because I've been very open that I did say those critical things and I regret them, and I regret being wrong about the guy. I think he was a good president, I think he made a lot of good decisions for people, and I think he took a lot of flak."
