In today's #vatniksoup, I'll introduce an American politician and gun rights activist, Lauren Boebert (@laurenboebert). She's best-known for her support of the QAnon conspiracy theory, for her support of Donald Trump, and for her pro-Russian voting patterns and hot takes.

1/15

Boebert comes from a modest background, and her family was allegedly living on welfare when she was growing up. After high school, she worked at McDonalds and as a pipeliner. In 2013, Lauren and her husband opened Shooters Grill, a gun-themed restaurant where carrying...

...guns openly was encouraged. In 2004 her then-boyfriend Jayson was arrested for exposing his penis to two young women at a bowling alley. In 2020, she protested the COVID-19 mandates by opening the restaurant despite of restrictions.

She was then served with a cease and desist order, with which she refused to comply. Eventually, their food license was suspended. The restaurant was a highly unprofitable business endeavor, and it was closed in 2022.

Around 2019, she started challenging various Democrat politicians on their gun rights stance and occasionally hanging out in demonstrations with far-right militias and organizations such as Three Percenters and The Proud Boys.

5/15

She also gained a lot of traction with her support of the QAnon movement. In May 2020, when she was interviewed by QAnon conspiracy theorist Ann Vandersteel, she stated that:...

Washington's Trashiest Couple

## JAYSON BOEBERT:

January 2004

Exposed his penis to a group of **underaged girls** at a bowling alley. Arrested and convicted of public indecency and lewd exposure.

February 2004

Arrested for **domestic violence**.

## LAUREN BOEBERT:

Lauren is part of the so-called MAGA Republicans group and a HUGE Trump fan. She's been a large proponent of the "Stop the Steal" movement, stating that there was widespread voter fraud in Arizona. She was also criticized for her Twitter coverage of the Jan 6th insurrection.

9/15

I will always stand for free and fair elections that are secure, lawful, and constitutional. Under the guise of the pandemic, the 2020 election was left wide open for malfeasance, fraud, and processes that made much of the country lose confidence in our electoral system. Now more than ever, we need to do serious work to secure our election systems that safeguard our Republic from fraud, corruption, and tyranny.

I have called for Republicans to hold hearings when we take back the majority and investigate any irregularities that occurred during the 2020 election. I voted to object to the certification of electoral votes from Pennsylvania and Arizona due to partisan bureaucrats and rogue judges circumventing state election laws.

Furthermore, the 2020 election was significantly impacted by big tech overlord. From banning the sitting President of the United States to censoring private citizens and suppressing the truth, Facebook, Twitter, and Google actively attacked the heart of our constitutional Republic. Facebook even sent hundreds of millions of dollars—otherwise known as Zuckerbucks—to Democrat voting precincts to fund get out the vote efforts in key districts to help Democrats win. I cosponsored the **End Zuckerbucks Act** to make sure big tech, malign influence, and private money stay away from our elections. Big tech has gone too far, and I won't stand for it. I will continue to work to rein in big tech and prohibit this abuse in order to protect our elections.

As a representative, Boebert has introduced a few dozen bills and resolutions, out of which only two have passed committee (the 1st step in making proposed legislation into a law). Some notable examples include a resolution seeking to enlist Antifa as a domestic terrorist group.

She's stated that her top legislative priority is the elimination of critical race theory from US schools, even though the theory is not even taught in schools.

## Rep. Boebert Condemns Critical Race Theory

June 8, 2021 | [Press Release](#)

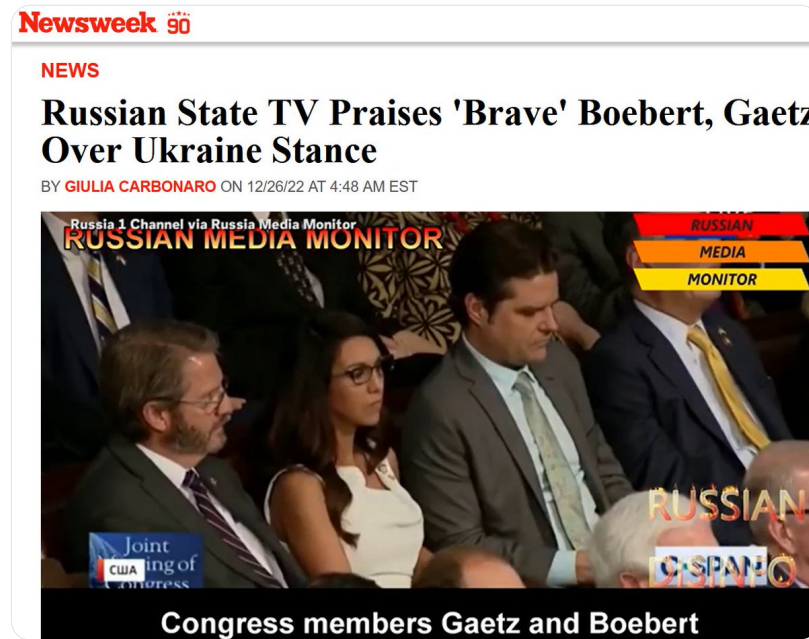

Representative Lauren Boebert (CO-03) spoke at a press conference ripping critical race theory and called for parents to oppose it.

Rep. Lauren Boebert stated: "Democrats want to teach our children to hate each other. This radical critical race theory brings division, not unity, it advances hate, not love, and puts a person's skin as more important than the content of their character. If we do not stop teaching critical race theory, then in the words of Ronald Reagan, 'we will spend our sunset years telling our children and our children's children what it was once like in the United States where men and women were free.'"

In Jan 2023, she opposed additional military aid to Ukraine, saying that the US has "already sent too much help" and continuing that "we don't know where that money is going". For some reason, Boebert also opposed Violence Against Women Act.

12/15

She claimed that the money to Ukraine would be better spent on protecting the south border and fighting the fentanyl crisis.

In Feb 2023, Boebert and three other representatives sponsored a bill to name the AR-15 rifle the US "national gun".

13/15

On 8 Apr 2023, @AnonOpsUnited tweeted that they have damning e-mails of Boebert's. As of today, it is still unclear if these hacks/leaks are genuine or not. If genuine, Mrs. Boebert apparently had Googled about the size of duck's penis.

The amount of military and humanitarian aid from the US to Ukraine is substantial, and halting it would have devastating effects on Ukraine. This is why the Kremlin will keep on promoting the Trumpists like Boebert, Gaetz, Santos and Taylor Greene to undermine these efforts.15/15

In today's #vatnik soup I'll be introducing a US representative and a pathological liar, George Santos. It is almost impossible to do a proper profile on this guy, since it's hard to know what aspects of his life are true and what are false.

But let's try!

In today's #vatnik soup I'll introduce a rabbit hole called QAnon, as it's a necessary step before we delve deeper into US vatniks such as Michael Flynn. QAnon is the origin of many active fringe movements inside the US today and it has spread virally around the world.
