In today's #vatniksoup, I'll introduce an American social media personality, Matt Wallace (@mattwallace888). He's best-known for simping on Elon Musk, and for spreading the most outrageous lies and conspiracy theories online, thus monetizing his social media accounts.

1/20

By his own words, Matt is a "successful entrepreneur and social media personality who creates high value content", but he's actually just a grifter who has allegedly made a lot of money with so-called pump and dump schemes related to cryptocurrencies.

2/20

Pumping and dumping basically means a situation where you promote a crypto/stock/whatever heavily to increase its price and then sell your share. Pump and dump schemes are extremely popular with cryptocurrencies.

3/20

Incidentally, Wallace also tried to start his own crypto, Accept Crypto. The token naturally tanked, and they claimed to be making "a recession for investors."

The scam was also covered by Coffeezilla:

His strategy of staying relevant and increasing his engagement, in addition to spreading fake news, is sucking up to Elon. He's the "Elon reply guy", and often tweets about how "cool" Musk actually is, while farming for likes and shares.

Perhaps due to this, Matt is just another of the many conspiracy theorists who were accepted to the X/Twitter's subscription pool and also gets plenty of ad share revenue from the platform. All this revenue comes from the disinformation & conspiracy theories he spreads daily.

The thing is, Matt doesn't even try the Russian method of mixing half-truths with lies - he just makes shit up. But don't take my word for it, here are some of Matt's outrageous claims without a single source:

- Obama's were connected to Epstein's trafficking ring.

In 2011 George **Soros** bribed actress Adriana Ferreyr into a sexual relationship by offering her a \$2 million condo. Then while lying in bed POST-COITIS he told her he changed his mind and gave it to another woman. He enjoys the thrill of manipulating/hurting people!

Right now Russia and Ukraine are in the middle of a war yet we continue to see videos come out of parties, clout chasing, and nightlife.

Do you believe we are being lied to about what is really going on?

The US has sacrificed hundreds of billions of dollars in the name of funding this despite being over 30 trillion in debt.

The war machine is getting richer and more powerful.

Politicians are profiting millions.

Yet it continues with no end in sight. Will this war last forever? If they are getting rich from it, then why ever stop it?

THIS IS A CRAZY TIME TO BE ALIVE! Are you scared of WW3? Should the US stop funding the Ukrainian war? What do you think will happen next?
