In today's #vatniksoup, I'll introduce a Canadian conspiracy theorist and social media personality, @liz_churchill10. She's best-known for spreading the most outrageous conspiracy theories, and for promoting pro-Kremlin narratives on social media.

It seems that Lizzy believes pretty much any conspiracy theory that supports her worldview. Globalist satanic cults, vaccines/Bill Gates/Klaus Schwab will kill you, HIV/AIDS is a bioweapon, Pizzagate, that Kamala Harris is part fish... it's all there.

My ad revenue pay was removed the same day I was supposed to get paid. They can decide where to advertise but X owes me for those weeks it allows ads on my page and profited.

This is simple business plus I have yet to receive an email stating why my ads were removed, why revenue tab has been removed from monetization and that I have been demonetized. I stressed a concern about ad pay in the past and this response is very similar to what you told me before but it just doesn't apply to this case. My funds that I earned for X was removed the day I was supposed to get paid. Sir I just don't feel fiscally safe.

Thank you for responding, hopefully this is a misunderstanding. I will attach a screenshot of my monetization tab.
